

INDUSTRY CAPABILITY

Construction

The team at National Pump & Energy (NPE) has significant experience offering ready for rent water management, compressed air and power generation services to a range of civil and general construction projects.

NPE has an extensive fleet of equipment to suit any job requirement. Our range includes pumping equipment, generators, air compressors, high pressure pipe and hose, fuel cells and an array of associated equipment.

Our equipment and personnel can be hired to suit the scope of your project, from one week to five years or more. Our specialist team will customise a solution and package designed specifically to meet the individual needs of your site and job requirements.

Our services include:

- Pump hire & sales
- Generator hire & sales
- Air compressor hire & sales
- Water management
- Site dewatering
- Well point dewatering
- System audits
- Slurry pumping
- HDPE pipeline construction
- Engineering & design
- Labour hire

Our ready for rent equipment includes:

- High volume/high head pumps
- Silenced pumps
- Trailer mounted pumps
- Generators
- Air compressors
- Hydraulic power units
- Filtration equipment
- Multi stage pumps
- Vacuum pumps
- Flow meters
- High pressure pipe & hoses
- Break tanks
- Associated ancillary equipment
