

INDUSTRY CAPABILITY

Flood & Disaster Management

At National Pump & Energy (NPE), we understand that when disaster strikes you need a fast and reliable solution. With our extensive equipment fleet and experienced team, we can provide you with peace of mind that the job will get done efficiently and effectively.

NPE can promptly design and package specialist flood & disaster management equipment through a single source of supply, expediting the process and eliminating the need for you to purchase and maintain expensive specialised equipment which may sit idle for long periods.

We carry an extensive range of high flow pumping equipment and generators of all sizes, backed up by our technical team, who will find the optimal emergency power systems or pumping solutions for the situation.

Clients around the world have chosen to use NPE to supply safe, reliable and innovative solutions when the unexpected occurs.

Our services include:

- Pump hire & sales
- Generator hire & sales
- Water management
- Dewatering
- System audits
- HDPE pipeline construction
- Engineering & design
